

HEALTH CARE MANAGEMENT, GRADUATE CERTIFICATE

The Graduate Certificate in Health Care Management is designed for students who desire a sequence of graduate-level courses that focus specifically on the business of health care management. Managers within the health care industry need to be able to understand and address unique industry-specific topics, ranging from delivery systems and integrated health care networks, to specialized accounting, legal, and ethical issues. Students will dig deeper into these areas through a focused set of courses taught by academic faculty and experienced health care executives with deep knowledge of the industry – and alongside other professionals with similar career challenges and goals.

This program can be completed as a standalone certificate or in combination with a master's degree program.
