

METADATA: INFORMATION ORGANIZATION, GRADUATE MICROCREDENTIAL

Metadata plays a critical role in organizing, discovering, and sharing information in libraries and beyond. This graduate microcredential equips students with essential theoretical and practical skills in information organization and metadata creation.

Aligned with core ALA-accredited MLIS competencies, this microcredential emphasizes the organization and representation of information, metadata standards, and the analytical skills necessary for success in today's information environments. Like all UWM microcredentials, it is designed to clearly demonstrate practical skills and competencies that help professionals stand out in a competitive job market.

Admission Requirements

Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

Admission

The microcredential in Metadata with a focus on Information Organization meets Graduate School and MLIS program requirements for admission. No additional requirements.
